IDENTIFIERS *Building Codes; *Legal Information; Legal Research; Oklahoma

ABSTRACT

In an effort to better serve their users, the Engineering Library at the University of Oklahoma surveyed 30 public, academic, and state agency libraries to identify libraries with collections of national standards, codes, and handbooks that are accessible to the public. This directory presents data received about the holdings of eight of those libraries as well as the holdings of the University of Oklahoma libraries. Not a highly detailed compilation of any particular library's holdings, the guide serves as a user's index to possible locations for particular standards. Beside a list of the addresses and telephone numbers of Oklahoma libraries is information on their lending policies. Data are displayed in a table, which includes information on: (1) the professional society--e.g., American Association of Cereal Chemists--or the general field from which the standard originates--e.g., Building Codes; (2) the name of the publication in which the standard appears; (3) location of the publication; and (4) information about the currentness of the collection--e.g., 1960-current. Also included is information about other organizations with governmental, historical, and single standards. The appendix lists 38 public and state libraries and 31 academic libraries throughout the United States that maintain microfiche collections of codes, handbooks, standards, and specifications. (SD)

GUIDE TO CODES, HANDBOOKS AND STANDARDS PUBLICLY AVAILABLE IN OKLAHOMA LIBRARIES

By Jimmie L. Lee, Engineering Librarian
University of Oklahoma
Norman, Oklahoma 73019

First edition, 1989

Metrodocs Monograph Three

Metrodocs is an informal library cooperative in the Oklahoma City Metropolitan Area consisting of the following Depository libraries for U.S. Government Publications:

Central State University Library
Metropolitan Library System in Oklahoma County
Oklahoma Baptist University
Oklahoma City University Dulaney-Browne Library
Oklahoma Department of Libraries
Southern Nazarene University R.T. Williams Learning Resources Center
University of Oklahoma Bizzell Library
University of Oklahoma Law Library

GUIDE TO CODES, STANDARDS AND HANDBOOKS AVAILABLE IN OKLAHOMA LIBRARIES

A number of areas of legal research require obtaining national standards, codes and handbooks, often in a hurry. Oklahoma has no single location for a comprehensive, publicly available collection of standards, including codes and handbooks. Incomplete collections are held in various public, academic and special libraries in the state. Most of these collections have been acquired on an "as needed" basis and as budgets have permitted. In an effort to better serve our users, the Engineering Library of the University of Oklahoma sent a standards survey to thirty libraries in Oklahoma. These particular libraries were selected as the most likely to have collections of standards that would be available to the public. It immediately became apparent that corporate libraries would not be able to fulfill the "public access" requirement. The survey also revealed that most libraries in the state have few or incomplete collections of standards. Eight Oklahoma libraries were able to submit detailed lists of their standards for inclusion in this guide. With the addition of the University of Oklahoma holdings, we believe that this guide reflects those libraries with the most comprehensive standards collections available for public use in the State of Oklahoma.

The helpful response of Oklahoma libraries in the compilation of this guide reflects the concern of Oklahoma librarians with the importance of maintaining service to our users through the sharing of our limited resources. This guide does not attempt to be a highly detailed compilation of any particular library's holdings of standards, but rather a user's resource list of possible locations for particular standards. Collections have been listed in various ways, including complete sets, partial sets, years covered, number of standards held and notes that may be helpful in the search for a particular standard.

I welcome contributions to the forthcoming update to this guide from any Oklahoma library.

OKLAHOMA LIBRARIES LOCATIONS AND LENDING POLICIES

Central State University Documents Department Edmond, Oklahoma 73034-0192 (405) 341-2980, ext. 2904	May be copied or requested through interlibrary loan.
Federal Aviation Administration Aeronautical Center Library AAC-64D P.O. Box 25082 6500 South Macarthur St. Oklahoma City, Oklahoma 73125 (405) 680-4709	May be copied or requested through interlibrary loan.
Metropolitan Library System 131 Dean A. McGee Ave. Oklahoma City, Oklahoma 73102 (405) 235-0571 Telefax: (405) 236-5219	Only currently applicable standards. May be copied or requested through interlibrary loan.
Northeastern State University John Vaughan Library Government Publications Department Tahlequah, Oklahoma 74464-9989 (918) 456-5511, ext. 3245 Telefax: (918) 458-2197	May be copied or requested through interlibrary loan.
Oklahoma Department of Libraries U.S. Documents Division 200 N.E. 18th St. Oklahoma City, Oklahoma 73105 (405) 521-2502, ext. 252/253 Telefax: (405) 525-7804	Includes historical Federal Standards. May be copied or requested through interlibrary loan.
Oklahoma State University Edmon Low Library Stillwater, Oklahoma 74078 (405) 744-6546 Telefax: (405) 744-5183	None available for loan. May be copied.
Oklahoma State University Technical Branch Library 900 No. Portland Oklahoma City, Oklahoma 73107 (405) 947-4421 Telefax: (405) 945-3289	Majority of standards are from 1970's. Maintains deposit account with ANSI. May be copied or checked out.
Southeastern Oklahoma State Univ. Henry G. Bennett Memorial Library Durant, Oklahoma 74701-9998 (405) 924-0121, ext. 245	May be copied, checked out, or requested through interlibrary loan.

BID-ASSISTANCE CENTERS

Although not for public access, the Bid-Assistance Centers, located in some Vo-Tech Centers, contain government specifications, regulations, industry standards and other information needed for preparing bids on Federal, State, County, City and private sector contracts. Libraries may refer these special user groups to their area Vo-Tech Bid-Assistance Center.

For complete information, contact:

Bid-Assistance Network
State Dept. of Vocational & Technical Education
1500 West Seventh Ave.
Stillwater, Okla. 74074-4364
(405) 377-2000

HISTORICAL AND SINGLE STANDARDS SOURCE

Some users need historical standards that are no longer available from the originating society. Other users need hard-to-find standards in hard copy and cannot wait on the search and interlibrary loan process. A practical solution to these problems is ordering the urgently needed standard from a single source supplier.

Global Engineering, a division of Information Handling Services, is the major supplier of historical, single, and hard-to-find standards.

For complete information, contact:

APPENDIX

The following appendix, courtesy of Information Handling Services (IHS), 1377 North Central Expressway, Dallas, Texas 75243-1059, (214) 234-4128, consists of public, state and university libraries that maintain microfiche collections of codes, handbooks, standards, and specifications from IHS. For codes to acronyms not listed in this Guide, see Directory of Engineering Document Sources, Global Engineering Documents, 1986, 3rd edition. (Global Engineering is a division of Information Handling Services). The numbers before the acronyms refer to IHS microfiche collection filing numbers.
